Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 40-52, drawn to an endodontic instrument.

Group 2, claim(s) 53-61, drawn to a method of widening a root canal.

Group 3, claim(s) 62-67, drawn to an endodontic instrument.

Group 4, claim(s) 68-71, drawn to a method of using an endodontic instrument for widening root canal.

Group 5, claim(s) 72-75, drawn to drawn to a method of using an endodontic instrument for widening root canal.

The inventions listed as Groups 1-5 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The independent claim 40 (Group 1) requires an endodontic instrument with a flexible member. The independent claim 53 (Group 2) recites the special technical feature, the flexible member, which lacks unity as evidence by Garnier (US Patent 3,578,745). Again, group 5 and Group 1 recites the special technical feature, the flexible member, which lacks

unity as evidence by Garnier (US Patent 3,578,745). No common technical feature is present between group 1 and groups 3 and 4.

A telephone call was made to Robin W. Reasoner on 11/05/2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to YOGESH PATEL whose telephone number is (571)270-3646. The examiner can normally be reached on 8:00 to 5:00 PM.
